GUIDELINES & BEST PRACTICES

Pre-registered? Go straight to tech inspection

It is recommended that racers in Practice Groups 3 and 4 start their sessions at the top of the hour to better manage speed differentials between smaller and larger bikes

NRO riders on track at the top of every hour for 20 min

No lunch break

One ALS Ambulance on site - This is an open practice day so please use your best judgement and save your PB for the races

For the benefit of all racers, we encourage respectful and safe riding practices
